

High school (Vol.2) - high school physics textbooks and refined the whole solution

By ZHANG PEI RONG

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 164 Publisher: Shanghai Jiaotong University Pub. Date :2010-1-1. Contents: teaching periodic motion of the whole solution Chapter B A uniform circular motion the relationship between angular velocity and linear velocity centripetal acceleration centripetal force $B * B * B$ Law of Universal Gravitation * Horizontal Projectile Motion Unit Summary mechanical vibration of C *-C pendulum D E wave mechanical wave generated description of F * wave interference. diffraction unit Summary Chapter two mechanical power A B C reactive D gravitational potential energy kinetic energy power and energy change E * the relationship between the kinetic energy theorem of conservation of mechanical energy F of Chapter VI Summary and gas laws molecule A molecule B Avogadro constant gas pressure and gas volume relationship c relationship between the pressure and temperature of compressed gas applications D E * ideal after school gas equation gas refining Chapter Summary A periodic motion and uniform circular motion B angular velocity relationship $B * B * B$ centripetal acceleration centripetal force law of gravity B * Horizontal Projectile Motion self-testing a mechanical vibration of...

Reviews

The very best publication i possibly read. it was writtern very perfectly and useful. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Wilhelm Predovic**

A must buy book if you need to adding benefit. This is for anyone who statte that there had not been a well worth reading through. Its been designed in an exceptionally straightforward way which is simply right after i finished reading this book where basically changed me, change the way i think.

-- **Adrien Robel**
