This manual covers everything you need to get started on your crystal self-healing journey. This book is short, simple, and effective! This book covers selection, cleansing charging, color association and chakras, history, healing, the primaries, selecting your crystals and more. I wanted to create a book that made it less daunting to become familiarized with crystals, and with a bit of laughter along the way. This manual can be read in a day, and have you addicted for a lifetime. Thank you for supporting independent publishers! PLEASE NOTE: Our cover art is not digitally altered. It is a scan of an original water color painting. I practice the art of Wabi-Sabi in my method and believe there is beauty in imperfection. So please allow it s imperfections to do the same for you. Thank you so much.
