By MR Nedelcho Ganev

Createspace, United States, 2011. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. In his book author Nedelcho Ganev strives to create a new literary method -psychotronism. According to him matter has exhausted its essence. It needs to be replaced by new type of matter - psychophysical. A life paradigm change is needed. The something has come from the Nothingness. DNA is not the carrier of genetic material, the Energy is. The foundation of psychotronism is the Energy of poetry. It moves in circles from the author to the Cosmic Mind, passes through the torsion field and enriched returns back to the reader. This divine circle encloses the spiral. It creates a prerequisite for virtual reality. Poetry reading releases energy. Psychotronism assumes a third pole in the ether. There is a possibility for a hologram image. The principle of his poetry is the message for the third millennium Lets take God out from ourselves and follow him.
