The purpose of this book is to go back in time to the age of the dinosaurs and explore just what exactly the Akylosaurus was, what it did, and where it lived. It is important and fun to learn about dinosaurs because they were some of the strangest and wonderful creatures to ever live on our planet. Exploring the mysteries of our planet is an engaging and worthwhile activity for people to do, and what better mysteries to learn about than the mysteries of the dinosaurs. The dinosaurs became extinct thousands of years ago but we still have access to their bones which scientists call fossils. The scientists which study fossils are called paleontologists. Paleontologists find fossils and study them in order to learn things about dinosaurs. We are going to talk about the things that scientists have discovered and what they hypothesized dinosaurs did. A hypothesis is an educated guess. We are going to learn about the educated guesses of scientists. They are only guesses, no matter how educated, because it is hard to prove things about dinosaurs since they no longer exist. Even though they are guesses they are incredibly important to think about because scientists use a lot of information...
