FAA Commission recommended that accelerate its program by 7 years or architecture is operational by 2005. However, we ATC more so that the new have some concerns about how realistic that goal may be. FAAs ATC modernization program consists of hundreds of interrelated, ATC Modernization Lacks a Complete Systems Architecture interdependent systems that need to be defined as part of a complete systems architecture. Simply stated, a systems architecture is a blueprint to guide and constrain the development and evolution (i. e., maintenance) of a collection of related systems. It consists of two principal components - a logical architecture and a technical architecture. The logical architecture includes a high-level description of the organizations mission, functional requirements, information requirements, systems, information flows, and interfaces. It is the means for ensuring that systems support business needs. The technical architecture details the specific information technology and communications standards and approaches that will be used to build systems...
