Language: English Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Mathematics for Students of Agriculture This book presents a year s work in mathematics for students taking agricultural courses in secondary, vocational, and technical schools and in colleges and universities. By omitting the more elementary or the advanced topics, as may seem desirable, or by properly selecting the exercises to be solved, the book will serve quite naturally for a half-year s work. The modern agriculturalist must devote a larger and larger part of his time to mental activity along scientific lines. To do this rationally he must have better methods for, and more practice in, estimating, computing, and comparing the materials and processes with which he works. The object of the present text is to furnish a better basis for effecting these ends. The text has been used in the form of mimeographed notes for several years in the classroom, and has been modified from time to time in the light of experience and of new conditions. It was soon found that it was not safe to assume too much preparation on the part of students taking the course. Consequently, material is presented in the text for study and practice in basic elementary processes in arithmetic, algebra, and geometry. Some study of this material will suffice for those students who have not had the proper preparation for the course as well as for those students who wish to review elementary facts and principles. The unifying element in the book is the attempt to make the principles of arithmetic, algebra, geometry, trigonometry, and graphic representation function with the student s interest and point of view . It is hoped that in this way he may find...
