## At Home With Numbers (Mixed media product)

By Jenny Ackland

Oxford University Press, United Kingdom, 2012. Mixed media product. Condition: New. UK ed.. Language: English . Brand New Book. At Home With Numbers is full of learning activities for young children to do at home. Children, from 3 years old, will learn to recognize and understand the numbers 1 to 5 through drawing, colouring, and matching activities. The book uses a variety of fun tasks to get children counting and sequencing, identifying sets of particular quantities, understanding the terms more and less and doing some basic addition and subtraction. The fun illustrations encourage using a pencil in a controlled way and improve hand-eye coordination. Useful tips support adults so that they can encourage learning gently - plus there are more than enough funky stickers to reward your child as they complete each activity! This book is ideal to build confidence in numeracy for a child's first years at school.

### Reviews

*The most effective ebook i possibly read. it was actually writtern quite completely and useful. I am just very happy to tell you that here is the best publication we have read through during my individual daily life and could be he greatest publication for possibly.*

-- **Kennith Nicolas**

*A must buy book if you need to adding benefit. This is for anyone who statte that there had not been a well worth reading through. Its been designed in an exceptionally straightforward way which is simply right after i finished reading this book where basically changed me, change the way i think.*
