Excerpt from 1951 Production Guides Handbook The suggested 1951 acreages for the crops included in today s announcement are listed below, with comparisons With last year s acreages. Separate acreage guides are not needed for peanuts and tobacco, which are still under acreage allotments. The allotments themselves set the acreage pattern for these. In recognition of the fact that the total available crop land is limited, the guides call for lower acreages of some crops in order to provide for increases for those which are more essential in the preparedness program. For example, the suggested grain sorghum acreage is down from last year in.view of the need for increased acreage of cotton and in recognition of the fact that farmers in the grain sorghum areas have already increased their fall sown wheat.
