ONTARIO TEACHERS MANUALS GRAMMAR (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Ontario Teachers Manuals Grammar The attention of the student-teacher is especially called to certain important points in regard to the presentation or statement of grammatical facts wherein the Public School Composition and Grammar differs from several other text-books. The most important of these are as follows: 1. The presentation of Case as a function and relation rather than as an inflection (page 217). 2. Recognition of the facts that many pronouns have no plural forms (page 43); that many nouns and pronouns have no possessive forms in actual use (page 224); and that the possessive forms of nouns and pronouns are used to express other ideas than possession (page 223). 3. A more precise statement of the nature of mood (pages 234-6). 4. The presentation of the fact that true agreement of verb with subject in person and number is comparatively uncommon in the English verb (page 227); and the providing of a form of parsing to correspond to that fact (page 242). 5. The substitution of you for thou as the ordinary so-called second person singular of the pronoun in connection with the conjugation of the verb. 6. The presentation of the expression subject omitted instead of subject understood in parsing the ordinary imperative verb (page 252). 7. The use of the terms co-ordinatire and subordinative in describing conjunctions (page 207). About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
