THIRD GENERATION WIRELESS PHONE THREAT ASSESSMENT FOR AIRCRAFT COMMUNICATION AND NAVIGATION RADIOS

Third Generation Wireless Phone Threat Assessment for Aircraft Communication and Navigation Radios

NASA Technical Reports Server (NTRS), et al., Truong X. Nguyen

BiblioGov. Paperback. Condition: New. This item is printed on demand. 218 pages. Dimensions: 9.7in. x 7.4in. x 0.5in. Radiated emissions in aircraft communication and navigation bands are measured from third generation (3G) wireless mobile phones. The two wireless technologies considered are the latest available to general consumers in the US. The measurements are conducted using reverberation chambers. The results are compared against baseline emissions from laptop computers and personal digital assistant devices that are currently allowed to operate on aircraft. Using...
