Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Logarithmic and Other Mathematical Tables In compiling this set of mathematical tables, I have selected those arrangements which experienced computers find most convenient. A number of desirable features are here introduced which have not appeared in any single collection of tables. In preparing these tables, a number of my friends have assisted me with their suggestions. Special acknowledgements are due to Professor W. W. Campbell, Astronomer at Lick Observatory, whose high attainments are so well known, and to Mr. J. O. Reed, formerly the efficient Principal of the East Saginaw High School. The proofs have been read with great care, and it is believed that the tables will be found very free from error. In reading the proofs, I have received much careful assistance from Mr. Taka Kawada. Mr. J. W. Glover has also assisted me by reading a portion of the plate proofs. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
