

Economic Applied Mathematics (Calculus textbook second Five-Vocational)

Filesize: 1.61 MB

Reviews

The book is great and fantastic. It is rally exciting through reading time period. I am pleased to let you know that this is basically the greatest ebook i actually have go through inside my very own life and may be he best book for possibly.
(Mr. Hyman Ankunding DDS)

ECONOMIC APPLIED MATHEMATICS (CALCULUS TEXTBOOK SECOND FIVE-VOCATIONAL)**DOWNLOAD**

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 256 Publisher: Machinery Industry Pub. Date :2011-09-01 version 1. Economy Applied Mathematics (Calculus) include: function limits and application of functions of one variable differential and application of functions of one variable integration and application of differential equations and applications. space analytic geometry and vector algebra. differential calculus and multi-function applications. and application of double integral. a total of seven chapters. Economic Applied Mathematics (Calculus) can be administered as a class of professional vocational students in mathematics. but also the other students as a reference book. Written by Yan-Mei Li. Liu Zhenyun chief editor. Wang Lujing. Cui Yuan deputy editor. Contents: Chapter before the official limits of a function and application of Section II limit function limits the application of Section IV mathematical skills of a small experimental data Chapter differential functions of one variable function and application of the concept of derivative section and calculate the differential function of the concept of Section III with the calculation of mathematical derivative application of the fourth quarter data for two experimental skills Chapter integral functions of one variable and application of the concept of indefinite integral section and calculation of Section II the concept of definite integral and calculation of Section III Section IV application of definite integral math skills three small experimental data and application of differential equations Chapter IV section the basic concepts of differential equations solution of differential equations II III IV application of mathematical equations four little experimental information skills training Chapter vector algebra and analytic geometry of space Cartesian coordinate system with the first section space vector algebra II and line III space plane space surfaces the fourth quarter of several common mathematical skills...
