The taxonomy covers conventional and digital publishing, as well as emerging hybrid and dynamic forms of publishing. Hybrid publishing being media agnostic, crosses over forms of publishing, tackling fundamental changes due to the fallout of digital disruption in areas such as; intellectual property, economics and knowledge institutions etc. Dynamic publishing addresses the opportunities of computation and digital networking, where many technologies remain under-explored, hiding in a mnemonic vacuum in new publishing technology development. Against this backdrop of institutional and industry forgetting this publication taxonomy list seeks to continuously include new definitions of publication and invites you to share, contribute and add-ancient, novel and hybridized forms of knowledge dissemination.
