Forgotten Books, 2018. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from God: Revelation by Christianity and Astronomical Science The Rt. Rev. James de Wolf Perry, J r., Bishop of Rhode Island once preached, in the presence of the author, just after his ordination as a priest, a sermon in which he quoted a celebrated French astronomer as saying, I have searched the whole universe with my telescope, the most powerful in the world, and I have failed to find God. The young minister depicted the disappointment of the astronomer with great scorn and advised every member of his audience that without any telescope they could find God in their own minds by careful thought and search. From that time on the author followed this advice and gave much thought and study to this ques tion and that which he has written herewith is the result of many years of search and study in this direction.
