Into what two great branches is the English law of property divided, and bow was it anciently divided? A. Into the law of real property and the law of personal property. The feudal rules which respected the holding and culture of land were the elements of the common law of real property; the rules relating to the disposition of goods were the origin of the law of personal property, which was, however, subject to the civil law in case of transmission by will or intestacy. The division of property into real and personal is comparatively of modern date.
