By J. Levin

Palgrave USA, United States, 2001. Hardback. Condition: New. 2001 ed.. Language: English . Brand New Book. Long regarded as a local institution, the community college has become a globalized institution. It has been affected by global forces, and by the interpretations of organizational members to both global forces and to the responses of intermediaries. Globalization as a process finds an outlet within the community college where economic, cultural, and technological behaviors are advanced along lines consistent with and supportive of globalization. Furthermore, government actions have directed community colleges to respond and adapt to a global economy. In this book, seven community colleges are examined to demonstrate organizational change in the 1990s precipitated by globalization.
