Excerpt from The Maritime Medical News, Vol. 16: A Monthly Journal of Medicine and Surgery; July, 1904 In this book a systematic attempt was made to make use of a class of facts which up to that time had been regarded as belonging to political arithmetic, under which description some of the most important problems of which modern writers term vital statistics had been studied, especially in England. Political arithmetic had come into existence in England in the middle of the 17th century. The earliest work is that of Captain John Graunt, of London, entitled, Natural and Political Annotations made upon the Bills of Mortality, published in 1666.
