A Study of Aeromagnetic Component Data Plantagenet Bank (Classic Reprint) (Paperback)

By G A Young

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from A Study of Aeromagnetic Component Data Plantagenet Bank Using Vector Airborne Magnetometers (schonstedt and Irons, extensive aeromagnetic surveys of the magnitude and direction of the earth s magnetic field have been carried out by the Oceanographic Office since 1953. The primary purpose of this work has been to chart the earth s main magnetic field, and as such the surveys have been conducted at relatively high altitudes feet), at track spacings of 200 miles, and the reduction of data has been limited to measurements at intervals of 15 20 miles along each track line. Other requirements have necessitated fine grain, low level air borne surveys of specific ocean areas, from which detailed total intensity information has been used to depict the magnetic field. The processing and analysis of detailed vector data over oceanic features have heretofore not been attempted. Using aeromagnetic survey data collected over Plantagenet Bank, this report describes a method for calculating the direction and magnitude of the anomalous field. In addition, a computer technique is applied to estimate the shape. About the Publisher Forgotten Books publishes hundreds of...

Reviews

Simply no words to explain. It really is basic but shocks from the fifty percent of the ebook. I am just happy to explain how this is the finest pdf we have read within my personal life and could be he best ebook for possibly.

-- Blair Monahan

Extensive guide! Its this kind of excellent read through. it absolutely was writtern very perfectly and helpful. Your way of life period is going to be change when you complete reading this ebook.

-- Murphy Dooley
