

Diving Log Book (2nd Revised edition)

By Chris Davey

AquaPress. Paperback. Book Condition: new. BRAND NEW, Diving Log Book (2nd Revised edition), Chris Davey, This new edition is now even larger allowing you to log 100 dives and incorporates many updates making it even easier to keep an accurate record of your dives. The changes allow more flexibility, and the new graph paper area allows space to record your dive profile, a map of the site or just simply continue writing your notes. This logbook is designed for recreational use only. If you are performing any work underwater or are being paid for diving please use a suitable commercial diving log book. This logbook is aimed at recreational divers who are diving for the majority of the time on air. The logbook may be used for decompression dives and nitrox dives. For nitrox dives we recommend that a record is made of the mixture used and other operational limiting factors such as maximum operating depth for each dive. Your dive log book contains all the information that is required to be recorded by law. In addition, there are many other areas of information that are included for information and reference. All the information required by the HSE (Health & Safety...
