Most students don't challenge their teachers' methods. But fourteen-year-old Timothy Thompson isn't like most students. He's a certified genius and science geek, and when Mrs. Barker, his biology teacher, tries to slip intelligent design into the curriculum and then refuses to teach evolution, Timothy simply won't have it. What happens from there is an all-out Batshit war. Timothy attends Omar L. Eventually, Timothy finds himself in a life-threatening situation, where not even his big, burly bodyguard can help him. Will Timothy survive? Or will he become a casualty of the war he started? A suspenseful, entertaining story, *The War on Science Goes Batshit* takes a fresh look at the war between religion and science from the perspective of a teenage geek, setting it up not only...
