Reviews

It is one of the most popular publications. It really is filled with knowledge and wisdom. It has been designed in an exceedingly straightforward way and it is merely soon after I finished reading this pdf by which it actually transformed me, affected the way in my opinion.

Forgotten Books, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from A Manual of Indian Botany The textbooks of Botany commonly used in India are not exactly suited to the requirements of the Indian student. Most of the plants which they cite to illustrate the text are foreign to the plains of India, and serve no purpose other than to cram his memory with facts which he has no means to verify by actual observation. These textbooks naturally give prominence to those Natural Orders which prevail in Europe, while those of Indian importance find a scanty notice. Then again, there are many points of special interest in the Indian Flora which are either left out or treated in inadequate detail. It is hoped that the present Manual, by providing a book based upon Indian Natural Orders, will supply this real and long-felt want. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy.
